INVESTMENTS

Nothing is more important than getting the right advice, at the right time especially in this complex and ever changing world.

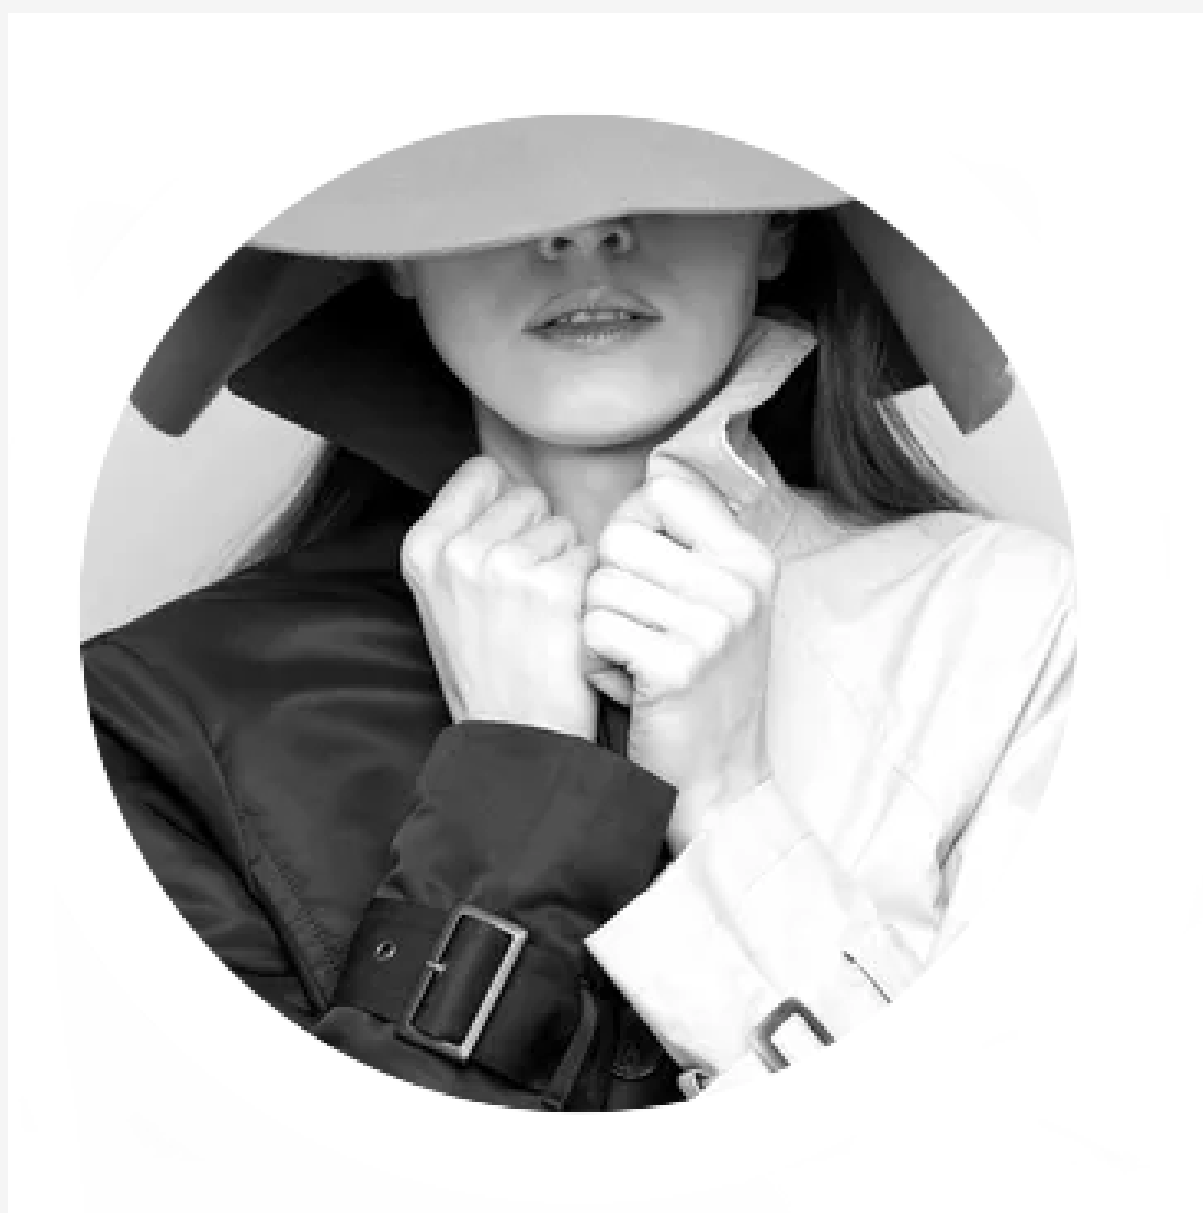

When planning investments for the future, it is important to consider the impact of inflation. Inflation is the rise of price of goods and services in an economy over a period of time. When the general price level rises, each unit of currency buys less goods and services.

In conclusion inflation reflects a reduction in the purchasing power per unit of money. How much will the money you have today be able to buy or pay for in the future, if your savings are not growing at the same rate as the cost of living?

WHY HARAS INVESTMENTS

Secure life's biggest purchases, and the smaller ones too.

For dealing with someone you don't know

Verify the identity of all users

Funds held securely in our patented vault

We protect both sides of the transaction

We help with any disputes

ABOUT US

Simplistic & Bespoke

The highly specialised and experienced team at Haras Investments offer an escrow service that ties in to a third-party transaction.

We do not operate an automated service or offer simplistic on-line services, as the transactions we protect and manage require careful management and a high quality of duty of care.

A Proven Approach

The experience of the team which spans more than 13 years in this sector enables us to not only offer fully compliant and authorised escrow and custodian facilities regardless of complexity, but also allows us to offer draw-down facilities, benchmark and stage payments, and as we have our own qualified legal associates, offer tri-party agreements where required.

Our Team

The team's experience is inclusive of, but not limited to, finance, accountancy, law, industry, construction, home improvements, commodity brokering, industry, manufacturing, logistics, asset financing and asset management, credit management, compliance, escrow services, sales and marketing, software development and IT.

INVESTMENT RISK

Your investments are your responsibility. We do not accept any liability for any loss or damage which is incurred from you acting or not acting as a result of reading any of our publications. You acknowledge that you use the information we provide at your own risk. **Information, not advice or recommendations** Our publications do not offer investment advice and nothing in them should be construed as investment advice. Our publications provide information and education for investors who can make their investment decisions without advice. The information contained in our publications is not, and should not be read as, an offer or recommendation to buy or sell or a solicitation of an offer or recommendation to buy or sell any securities. Our publications are not, and should not be seen as, a recommendation to use any particular investment strategy.
