

Dear Sir/Madam

Further to your conversation with your consultant previously, I am now writing to you regarding the investments you have acquired through the company in question.

This is just a brief outline of what we conduct as a company and how we would like to help as the previous company you were involved with left you in a difficult position regarding your assets.

As you are fully aware the company you were dealing with before are now in liquidation, all the clients who were involved have been passed to Sachaso Management Consultants to assist you all in any way that we possibly can.

Our aim is to recover your funds you have paid in good faith to the organisations in question.

Sachaso Management would like you to understand that we have been tasked with dealing with the management of the company in question. We are also looking into the exposure to the UK clients involved.

We are currently processing claims to reimburse creditors of **Minerva Developments**. Your reimbursement is subject to our standard anti money laundering checks.

We will require an email back to us including a copy of your photographic ID, this will need to be a passport or driving license.

Once the first steps of confirming your identity have been completed, we will then go on to forward you the necessary details for your management claim and any further documents we require.
